Paid On A One Time Basis - Professional Services

Professional Services

SEO Suite Service	Prices	Brief Description
Site and Database Conversions		
Training Classes	* Quote	We offer training for Administrators of the program. The time for the training program varies based upon the computer skill set of the user.
osCommerce Compatible Program Conversions	\$610.00	Move a copy of your current site from your current web hosting provider. This includes all the database files and images. We convert database from your programs version and copy to our database structure.
3rd Party Ecommerce Site Conversions	** Quote	Total data conversion as described above. The price depends upon many circumstances which would need to be evaluated before a price could be given... See (Site, Catalog, Products, Images, Pricing Setup)
Data Integration - Accounting, ERP, Supply Chain etc	** Quote	Setup a direct link between your new Ecomstor site and any accounting or database systems that you want to receive real time feeds of the ecommerce data.
Installation On Your Hosting Server	\$144	We install Ecomstor to your web server via FTP. We setup your databases and you are ready to roll.

Software, Service and Hosting Pricing –March 2011

Installation Of Program Updates	\$144	We install the software update to your server. It is easy to do but some people want this service.
Site Setup & Product Setups		
Look and Feel Customizations	\$610	We will have a graphic artist customize your site and make look like an existing site or a new site. You choose the colors and the fonts. Price includes one (1) Flash
Special Graphics - .png, .jpg	\$55	Price per graphic. These are special graphics for each page. These graphics are made based on the design you desire. You must give us a detailed desire of the look and feel you desire.
Flash Graphics	\$144	We create an Adobe flash of your products and images. We require that you send examples to tell us exactly what you desire. Our Flash skills are very advanced and we can create anything you show us you desire to emulate.
Product Insertions	See Table	We take your products and images and insert them into the database. You are required to supply all the information via an Excel Spreadsheet or other means. The more organized your data, the cheaper the cost to convert it into Ecommerce ready products.
Keywords Insertions	See Table	Each product is optimized with the top Google search keywords that are relevant to that product.
Custom 3rd Party Template	** Quote	We will create an exact look and feel of the site you desire.
Custom Programming	** Quote	Custom programming can only be done for InterpriStor customers. These customers would have to purchase the source code and sign NDA (Non Disclosure Agreements). Price would be a reasonable \$89 dollars an hour. Get a quote for the time. We give firm prices and it won't cost as much as you think..
Video Photography Of Products	** Quote	Our professional Video Production group can make Demonstration videos of your product to be included in your website.

3rd Party Addons

Installation (Fantastico - Installatron / Integrazon Addons)	\$34	Installatron comes with more than 50 different addons for Ecommerce. It is very easy to install. However, for those who would rather purchase this service be performed for them... we offer a single installation price for each addon you desire.
Customization - (Fantastico - Installatron / Integrazon Addons)	\$987	We have a graphic artist customize your add-on site and make look like an existing site or a new site. You choose the colors and the fonts and Template style. This is much harder to do as all the changes must be made through the programming language as they are not template driven as our programs.

Software, Service and Hosting Pricing –March 2011

3rd Party Addons - Install & Customization

\$144

These are programs that are supported by Ecomstor but are not preloaded with the program. You must purchase these programs on your own. We will install the programs and link them to Ecomstor.

Paid On A One Time Basis - Product Insertions

This service really varies by the amount of work that needs to be done. If you have never had a web presence and everything must be done for the first time... The price will be about \$10.00 to \$20.00 per product uploaded. This includes upload of data, formatting of pictures at 100, 200 and 400 pixels. This includes a setup of options and attributes for each product.

The price includes the creation of the product and submission of the product to the Major Search Engines. This is a manual submission method that generates the best submission.

- Parcel products are products shipped by Ups, Fedex, DHL and USPS.
- LTL products are product sizes and quantities that cannot be shipped via the above and must ship through Trucking Carriers such as ABF, DB Schenker, Con-way, Freighquote.com, Fedex Freight, Yellow and USF.

Product creation and insertion into the database is a very easy task. It is however very time consuming as there many steps to initially create a product and this is true with any ecommerce system.

Product Insertions

If you give us all the product data in the exact format and pictures of the products in proper sizes then the price for data insertion is very reasonable.

Initial Product Setup – Parcel

Interpristor Product Setup – LTL Only

Products	Price Per Product	Totals	Products	Price Per Product	Total
25	\$5	\$125	25	\$6.00	\$150
