

## Ecommerce Redefined

Logistica Solutions produces three (3) e-commerce software solutions:

Ecomstor SEO, Ecomstor SEO Suite, Integrazon, Interpristor and Interpriseo.

- Ecomstor - 3rd generation e-commerce based on the osCommerce platform.
- Integrazon - Take existing applications and integrate with over 50 other web-based internet applications.
- Interpristor - Enterprise Grade Solutions with ability to process all freight delivery methods - National Parcel, LTL, TL, Intermodal and International Parcel, LTL, and Cargo.

### Equivalent to one month's IT employee salary ...

Logistica Solutions gives you:

- E-commerce site integrated to your shipping and accounting
- Salesman's quote system
- Distribution quote system

Compare what you get right now from a secretary, who answers phones and the like...

For that same amount of money, you can have a new addition to your business that will streamline operations.

This provides more value and greater ROI.

**Same amount of money... what will you have at the end of the month?**

### Radically Reduced Shipping Processing Costs

The order and the freight costs are calculated automatically and payments are made via the Internet.

You fulfill the order, print the labels and ship.

### Template Driven Quote Package for Your Salesmen

Send a quote with freight in seconds... no calling and waiting for freight quotes. You pay the same prices you pay to receive quotes over the phone.

Compare this to the length of time it takes to send a quotation with freight included.

### Internal Order Processing for Invoices

Use the Administration area to create an order and process directly through the website.

### Distributor Login and Ordering System

Processes orders for package (UPS, FedEx, DHL, USPS, Mail Canada)

We are the only product on the market which can process LTL (Less Than a Truckload) and TL (Truck Load) orders.

Logistica Solutions Inc – 3855 E La Palma Ave - Suite 104 - Anaheim, CA 92870 - 714-238-3209 - 877-314-1618

**Drop Shipping**

Sell products from multiple vendors: an order is taken by the website processor, and then routed (via email) to the selling vendor, who fulfills the order and ships.

**Major Features**

- Virtual salesman
- Virtual accounts receivable clerk
- Virtual shipping clerk
- Virtual programmer

Reduce labor cost and increase ROI

How much time is spent getting freight quotes?  
Writing orders, invoices, BOLs

**Imagine a computer robot worker who:**

- Presents your product
- Gives pricing
- Calculates the invoice with taxes
- Looks up and secure an instant quote for package and LTL freight
- Processes the sale
- Gets the money transferred
- Sends invoices
- Coordinates Shipping
- Notifies customer of every transaction

Works 24 hours a day/ 365 a year  
Cybersalesman  
Monthly salary – cost of service  
Insurance =0  
Benefits = 0  
Vacation and sick days =0

Rich feature set and features offered only by us

If somebody wants to order, let them. Make it easy for them.

Process the order and freight quote without any staff, and save time and labor.

**E-commerce Today: Small Orders**

Customers often buy only one or two of a product. But what happens when someone wants to order 100 or 1000 items? You cannot process the order through UPS. You need a LTL quote system.

Every e-commerce program in the world can handle one or two retail orders.

But what happens when someone wants to buy 100? You can't ship with the same system.

It costs you less to buy this program than to continue what you are doing now.

You can decide to spend your money on increased efficiency, or lose more than the cost of this product on labor-intensive practices.

**How do you think business will be done in 5 or 10 years?**

How much does it cost you every day to get LTL freight quotes?

How much does it cost you to sell a LTL shippable item?

Your next step:

Ecommerce was supposed to give you the ability to sell everything over the internet – all your products, big and small; all your orders, big and small. It didn't.

Well... the future has arrived.
