EcomStor + InterpriStor

The screenshot displays the EcomStor + InterpriStor demo website. The browser window title is "Ecomstor / Interpristor Demo Website - Mozilla Firefox". The address bar shows the URL: "http://www.ecomstor.biz/admin/index.php?selected_box=none&ecoAdminID=917471f1c8a836307232fa08". The page features a navigation menu with the following items: Store, Catalog, Customers, Orders, Shipping (selected), Marketing, Content, SEO, CRM, Data, Tools, and Admin. The main content area is divided into several sections:

- Shipping Quote Modules:** Quote Engines, FedEx, UPS, DHL, USPS Quotes, FedEx, UPS, DHL, USPS, Dimensional Weight Calculation.
- Parcel Shipping Addons:** eShipper, ShipRush, Intershipper, Readyshipper, iABOL.
- LTL Shipping Addons:** Freightquote, Con-way, YRC, DB Schenker, Fedex Freight, Cerasis.
- Enterprise Shipping Addons:** Malvern, SMC³, RateWare, FastClass, WebRater.
- FreightQuote:** FreightQuote Orders, Account Info, Online Quote, Print a BOL, Tracking, View Open Invoices, Payment.
- DB Schenker:** Quotes, Pickup Request, Tracking.
- ClassIT:** Find Package.
- FedEx Freight:** Quote, Pickup, BOL, Track, Verification, Billing.
- Con-way:** Quote, Tracking, Pickup Request, BOL, Reports, Proof Of Delivery.
- EShipper:** Ship, Quote, Track, Pickups, Invoices, Reports.
- YRC:** Quote, BOL, Pickup Request, Tracking.
- Fulfillment Addons:** ShipWire.

The sidebar on the left contains two sections:

- Products (Manage) [?]:** Total Number of Categories : 55, Total Number of Products : 359, Active Products : 332, Out of Stock : 0.
- Customers (Add/View) [?]:** Total Customers : 79, Subscribed : 76.

At the bottom of the page, there is a status bar with the following information: "Waiting for guest1.meebo.org...", "8 Adobe Acrobat 8.1", "User Manual 09092010", "Ecomstor / Interprist...", "01 - Store Management [...]", "05 - Shipping Managemen...", and "1:14 PM".

Estimated Delivery Time

Display the estimated delivery time beside the shipment method in checkout?

true

false

Shipment Type

Select the type of shipment:

P - Package

L - Letter

P

L

Shipment Type

Select whether you usually ship on a certain day (ex: every Monday) or usually in x number of days (ship out in 2 days). Then set either the x number of days or set day below.

- Ship in x number of days
- Ship on certain day

Days to Shipment

If using "Ship in x number of days," how many days do you estimate it will be from when a customer orders until you ship the packages? (0 = ship same day, 1 = ship the following day, etc)

Shipment Day

Select the day you ship on if using "Ship on certain day"

- Monday
- Tuesday
- Wednesday
- Thursday
- Friday

Override Express Saturday Shipping

If you want to enable shipping an Express Saturday shipment on a day that is not Friday, use this override to generate the shipping quote.

- true
- false

Dimensional Weight

Do you want to use dimensions in the rate request? (dimensions set below)

- true
- false

Average Dimensions

Setup your average dimensions as follows:
number of products
ordered:lengthxwidthxheight with a comma
seperating each entry.

1:12x8x2,3:24x10x3

Dimensional Exclusive Option

Do you want the dimensions to be
exclusive the number of products in the
cart?

Example: If this is true, and you have a
dimensional table setup for 1 product and
3 products, only dimensions will be used if
1 product or 3 products are ordered.

- true
- false

Additional Protection

Do you want to quote the rate with additional protection against potential loss or damage?

- true
 false

Additional Protection Type

If you have additional protection enabled, select the type of additional protection you want to use.

AP - Shipment Value Protection
NR - No Additional Protection

- AP
 NR

Additional Protection Value

If you have additional protection enabled, by default the cart subtotal is used as the protection value. Use this to add additional protection value on top of cart subtotal.

Example:

10 - adds \$10 to cart subtotal
10% - adds 10% to cart subtotal

Handling Fee

Handling fee for this shipping method.

Tax Class

Use the following tax class on the shipping fee.

--none--

Shipping Zone

If a zone is selected, only enable this shipping method for that zone.

--none--

Sort Order

Sort order of display.

FedEx

FedEx Corporation (FedEx) provides a portfolio of transportation, e-commerce and business services through companies that compete collectively, operate independently and manage collaboratively, under the respected FedEx brand. These companies are included in four business segments: FedEx Express, Federal Express Corporation (FedEx Express), is an express transportation company, offering time-certain delivery within 1 to 3 business days and serving markets that comprise more than 90% of the world's gross domestic product; FedEx Ground, FedEx Ground Package System, Inc. (FedEx Ground), is a provider of small-package ground delivery service; FedEx Freight, FedEx Freight Corporation, is a provider of less-than-truckload (LTL) freight services through its FedEx Freight business and its FedEx National LTL business, and FedEx Kinko's,

FedEx Kinko's Office and Print Services, Inc. (FedEx Kinko's), is a provider of document solutions and business services.

UPS

United Parcel Service, Inc. (NYSE: UPS), commonly referred to as UPS, is one of the world's largest package delivery companies. UPS delivers more than 15 million packages a day to 6.1 million customers in more than 200 countries and territories around the world. Since 2005, its operations include logistics and other transportation-related areas. It has been headquartered in Sandy Springs, Georgia, USA since 1991; headquarters had previously been located in New York City from 1930 until 1975 when it moved to Greenwich, Connecticut.

USPS

The United States Postal Service (USPS) is an independent agency of the executive branch of the United States government responsible for providing postal service in the US. Within the United States, it is colloquially referred to simply as "the post office", "the postal service", "the mail" or "USPS".

LTL Shipping Addons

LTL Shipping Addons | Freightquote

Freightquote.com gives you instant comparisons from lots of great carriers. Our user-friendly tools automate everything - pricing, pickups, documents, and tracking. Customers trust us with over 500,000 shipments every year - click below to learn what we can do for you.

Freightquote.com is a leading provider of web-based freight transportation management services for small businesses. Our carrier comparison and shipment management solutions help customers simplify freight shipping and manage their transportation spend.

Based outside Kansas City, Freightquote.com and our subsidiaries serve customers across North America. The company has over 850 employees and annualized revenues exceeding \$400 million.

Objectives:

The mission of Freightquote.com is to provide our customers with tools that make freight transportation management faster, easier, and more cost efficient.

We envision an environment where carriers and shipping customers come together in the most mutually beneficial ways... an environment where a customer's service and price requirements are optimally matched with a carrier's operational strengths. Our mission is to be the solution that facilitates these benefits for our carriers and our customers.

To realize our vision, our organization focuses on innovative technology and outstanding people - people with energy, insight, and a fervent customer service mentality. This model has provided Freightquote.com with incredible growth throughout its history, and we remain committed to our philosophy as we look to the future.

Advantages:

Fast

We only need a few pieces of information, and in seconds you can choose a carrier, schedule a pickup, print shipping documents, and you're done.

Easy

Great choices and great prices make quoting easy. See all your shipments' statuses on one screen, and get one simple weekly invoice. Plus real customer service via email, chat or toll-free.

Free

Quoting is always free. You only pay for the carriers you use, when you use them. No hidden charges and no surprises.

LTL Shipping Addons | Cerasis

Cerasis was established in August of 1997. We take a unique look at our customer's needs and processes under the premise of simplifying the shipping & logistics process by focusing on shipping and logistics technology for the B2B and E-commerce marketplace.

Cerasis has developed a sophisticated internet based software system that helps the shipper manage the underlying logistics process, which results in significant time and costs savings. The LTLRater is a multi-carrier shipping solution, which allows your companies to conveniently make the smartest decisions instantly.

- Guaranteed Rates
- Freight Cost Reductions through Lane Base Rating / National Pricing Plans.
- Simplified Accounting Processes
- Consolidated Invoicing
- Freight Bill Auditing Services
- Controlling / Managing Freight Costs
- Outbound, Inbound, & Drop-ship Management Tools
- Customer Satisfaction Applications

- Commodity Classification Reviews
- Integrated solutions within existing Enterprise systems

Parcel Shipping Addons

Parcel Shipping Addons | eShipper

eShipper is a division of CWS Inc. A non-asset based logistics solution provider specializing in unique customized logistic solutions. Since eShipper's inception in 2005, our program has been tried, tested, and proven by thousands of satisfied customers.

Our established relationships with all the major airlines, couriers, trucking, and ocean carriers enables us to provide our clients with preferential pricing and superior service.

Simply put we manage the relationship with transportation providers so that you can spend your time in growing your bottom line.

The need for eShipper along with eOrder was identified by our owners at a time when our clients were seeking a technology solution that would allow them to process all of their shipments from one application. The onerous task of utilizing multiple service providers had been deemed by our customer to be tedious along with an inefficient use of time. With all that in mind the development of eShipper began!

Once launched our SMC's (small & medium sized companies) wanted us to take eShipper one step further and assist in monitoring their inventory counts. We listened, and with that eOrder was launched. eOrder is a real time, on-line inventory management tool that can be utilized for multiple locations as well as an integrated management tool for web based shopping tools.

eShipper is the culmination of many years of hard work and dedication of both CWS Inc. and our customers. Through this dedication to excellence we are pleased to provide you with the number one source for online shipping and logistical services.

Parcel Shipping Addons | ShipRush

Parcel Shipping Addons | eShipper | ShipRush There are four different versions of ShipRush to suit your needs. So stop wasting time re-keying shipping information and start shipping right from your accounting or CRM system! ShipRush is the easiest and most efficient way to ship – it can even automatically save and email tracking numbers!

Parcel Shipping Addons | Intershipper

Let InterShipper help you by using our logistics application to control all of your shipping needs. From rating and order processing, to pickup or drop-off scheduling, policy compliance, plus real-time tracking and in-depth reporting, InterShipper enables you to more completely manage the transportation activities that can add a positive impact to your bottom line. Across the enterprise or at an e-commerce check out, empower employees to confidently make transportation decisions or enhance your customers' buying experience, while providing full compliance to established corporate guidelines and policies.

Parcel Shipping Addons | Readyshipper

ReadyShipper gives you the tools to import, organize and route your order information. Create shipping labels instantly; even produce all-in-one forms for enterprise level efficiency. If you are one of the many who cut and paste your order information, or has multiple processes just to create your shipping labels, then look to ReadyShipper. ReadyShipper is designed for use with CSV files, ODBC database connections, and many of today's popular shopping carts and order management systems. These include Yahoo!, PayPal, Monster Commerce, NetSuite, ShopSite and OrderMotion among others. Import your orders in a single click,

ship your orders, and automatically update many of our integrated partners instantly with shipping information.

Parcel Shipping Addons | Endicia

Endicia delivers the leading Internet Postage technology to the mailing industry. Their patented technologies enhance TrueShip's USPS Module with secure Internet Postage and remote address verification. Import, view, sort and print USPS mailing labels, the USPS module works with all available forms and label formats offered by TrueShip.

Endicia lets you print complete, prepaid postage for any single-piece domestic mail class offered by the US Postal Service, including military (APO/FPO) addresses Whether it's First-Class Mail, Priority Mail, Express Mail, Media Mail, Library Mail, Bound-Printed Matter, or Parcel Post - choose your mail class and print with Endicia to save time. Endicia computes the exact postage you need, so you don't overpay for postage or risk your packages arriving to your customer postage-due.

Enterprise Shipping Addons

Malvern

Malvern Systems, Inc. was founded as Malvern Scale Data Systems in 1980 to market a line of scales based on a patented "digital load cell" technology. In 1985, the company developed the first PC-based manifest shipping system to be used with its scales for automating the shipping of parcels by UPS and other carriers. In 1993, Malvern began manufacturing carrier-compliant thermal shipping labels. Today, after installing over 7,500 systems, Malvern has evolved into a manufacturer and software developer with both affordable, front-office solutions and high-end, overall warehouse improvement solutions.

Malvern Manifest System Overview

Whether your operation ships as many as 20,000, or as few as 10 packages per day, this integrated, multiple carrier shipping system will greatly improve your productivity and substantially reduce your overall shipping costs. The Malvern Manifest System can work for a single user or in a multiple station network environment. Using Malvern Link, the shipping system can be linked in real-time to virtually any host application, database, text file, and platform.

FreightQuote

Under FreightQuote label you will get few items those are FreightQuote Orders, Account Info, Online Quote, Print a BOL, Tracking, View Open Invoices, Payment etc.

FreightQuote | FreightQuote Orders

If you click on FreightQuote Orders you will get a pane as shown bellow. Here a list of customers is displayed who belongs to FreightQuote transportation service. Their corresponding order, date purchased and status are also displayed.

Bax Global

Clicking 'Bax Global' submenu all the items will be redirected to <http://www.baxglobal.com>

BAX Global is an international shipping company that is headquartered in Irvine, California, and has other major offices in Australia, Singapore, London, The Netherlands, and Toledo, Ohio. The company which was founded in 1971 also

operates an airline. After having been acquired by DB Logistics in January 2006, Bax Global is currently being integrated with Schenker, the land, sea, and air freight branch of DB Logistics. DB Logistics is the freight and logistics division of Deutsche Bahn AG, the German railway company.

BAX Global Inc., with worldwide headquarters in Irvine, Calif., is a \$2.9 billion supply chain management and transportation solutions company offering multi-modal logistics management for business-to-business shippers through a global network of nearly 500 offices in 133 countries. Leading over 12,000 employees is Chief Executive Officer, Joseph L. Carnes.

Many of the world's largest companies use BAX Global to manage their supply chain. BAX Global specializes in managing the movement of heavyweight packages and cargo of all shapes and sizes. The company offers specialized services for the aerospace, automotive, hi-tech, retail, government and health care industries.

BAX offers BAXSuite transportation and supply chain solutions. In North America, BAX offers three product options: BAXGuaranteed includes guaranteed overnight and second day products, BAXStandard overnight and second day and BAXSaver, timely delivery within 1 to 3 business days. The company's North American transportation system includes a mix of aircraft and trucks combined to offer expedited delivery to every important business center in the North America.

Internationally, BAX has one of the largest service networks in the industry. The company offers expedited and standard air freight, ocean forwarding, customs brokerage, documentation and banking services across the globe.

The company's Argus+ global communication and information management system, allows BAX offices and agents to communicate to one another, monitor shipments, provide customers with customized.

With over 500 offices in our worldwide network, BAX Global offers you the advantage of shipping any size or weight freight between virtually any two points on the globe. Services include guaranteed shipping, standard door-to-door and airport-to-airport delivery, low cost shipping, customs brokerage, tracking, ocean forwarding, banking and documentation services, and logistics management. We also specialize in a complete range of supply chain services to local, regional and multi-national companies -- from automotive to medical, aerospace to high-tech -- no matter what your business requirements demand. Ship with BAX Global and you'll understand why we say, whatever your shipping requirements are, all you need to do is "BAX-iT."

Fulfillment Addons

After clicking 'ShipWare' item under 'Fulfillment Addons' you will get this window.

ShipWire World Class Fulfillment Services

Receive, store, and ship merchandise right from your store!

100% integrated with your store application, our Shipwire module sends orders from your store directly to your Shipwire fulfillment center. Take advantage of Shipwire's volume discounts and have your orders automatically packaged and shipped, often for less than the cost of standard shipping.

What is Shipwire?

Shipwire is a popular order fulfillment service that allows you to store merchandise in massive Chicago and Los Angeles warehouses. Then as each order comes into your online store, Shipwire will pack and ship it for you.

You can add a Shipwire account with just a few clicks of the mouse - no programming involved. If you're just starting out, or looking for a better way to manage your shipping and handling, Shipwire offers an easy and quick way to outsource shipping with no startup, receiving, storage or packaging fees. You just pay \$79.95 a month, plus a Shipwire handling fee on the merchandise that they ship. Handling fees range from \$1 to \$1.50 an item and depend on the type of handling your product needs.

With Shipwire, your customers can receive merchandise anywhere in the world, serviced by the USPS, UPS or one of our freight partners. With facilities shipping more than 200,000 orders a month, they can customize your merchandise with assembly and kitting services at extremely affordable prices.

Shipwire makes it simple to automate order fulfillment on your site: Get approved in 24 hours. As soon as you enter your SKU information and send them your initial inventory, they can start shipping your orders.

Shipwire makes extensive efforts to help you accurately monitor shipping and handling costs. Shipwire's reporting tools help you understand your inbound and outbound shipping, and automate time-consuming bookkeeping tasks.

Basic \$79.95/mo

Shipwire is a service that allows you to store merchandise in massive Chicago and Los Angeles warehouses. Then as each order comes into your online store, Shipwire will pack and ship it for you. You can sign up free from here.

Running a retail business doesn't have to involve so much grinding work on storage and shipping. With a few clicks on Shipwire's Web site, a growing business can arrange to have inventory sent to Shipwire warehouses, integrate Shipwire with their Web site and start fulfilling customer orders in real-time.

Shipwire handles the storage, the packing, the shipping and other logistical details from warehouses in Chicago, Los Angeles, and Toronto, with more scheduled to come online around the world.

FedEx Freight

Clicking 'FedEx Freight' submenu all the items will be redirected to <http://www.fedex.com>

FedEx Corporation (FedEx) provides a portfolio of transportation, e-commerce and business services through companies that compete collectively, operate independently and manage collaboratively, under the respected FedEx brand. These companies are included in four business segments: FedEx Express, Federal Express Corporation (FedEx Express), is an express transportation company, offering time-certain delivery within 1 to 3 business days and serving markets that comprise more than 90% of the world's gross domestic product; FedEx Ground, FedEx Ground Package System, Inc. (FedEx Ground), is a provider of small-package ground delivery service; FedEx Freight, FedEx Freight Corporation, is a provider of less-than-truckload (LTL) freight services through its FedEx Freight business and its FedEx National LTL business, and FedEx Kinko's, FedEx Kinko's Office and Print Services, Inc. (FedEx Kinko's), is a provider of document solutions and business services.

Con-way

Clicking 'Con-way' submenu all the items will be redirected to <https://www.con-way.com>

Satisfying customers has never been more important. In today's global economy where logistics and transportation play a vital link, Con-way and our operating companies are our customers' greatest advantage. Whether it's across town, across North America, or around the world, we lead the industry with a portfolio of offerings ranging from less-than-truckload (LTL) to logistics, to full truckload.

Con-way Freight is the premier provider of reliable, regional, inter-regional and nationwide LTL service to customers large and small across our integrated, single North American network of LTL operating locations.

Menlo Worldwide Logistics is a leading global provider of a wide range of logistics, transportation management, freight brokerage and supply chain services with operations in North America and 17 countries on five continents.
